

FOR PRACTISING DOCTORS & CLINIC OWNERS

**Your front desk, on the number
your patients **already** have.**

Patients message your clinic's WhatsApp and book themselves. You get **one live queue, one patient record**, and reminders that send without anyone remembering to.

24 x 7

A booking desk that **never goes home** — and never puts a patient on hold.

2 min

To go live. Scan a QR code the way you'd
link WhatsApp Web.

₹0 / msg

No Meta business approval, **no template clearance**, no per-message fee.

Four things other booking apps don't do

WHY THIS ONE

WhatsApp on your own number

The number your patients already have becomes a booking assistant. The phone stays yours and keeps working normally — you can still reply to anyone by hand.

Live in about two minutes

Reminders anchored to the visit

Not "Tuesday at six" — one day before, or two hours after it ends. Reschedule and the reminder moves with it; cancel and it disappears.

The biggest single lever on no-shows

Stages named the way your clinic talks

Not just Booked / Completed / Cancelled. Define your own — Waiting, In consultation, Sent for tests, Report pending — each with its own colour on the queue.

The software adapts to you

You write the conversation

Drag blocks onto a canvas and join them. Edit a draft while the live assistant keeps working, publish when you're happy, roll back in one click.

No developer, no ticket, no wait

Your clinic day, on one screen

The shape of the day before you sit down

Booked, completed, no-shows — split by location and visit type. With an export.

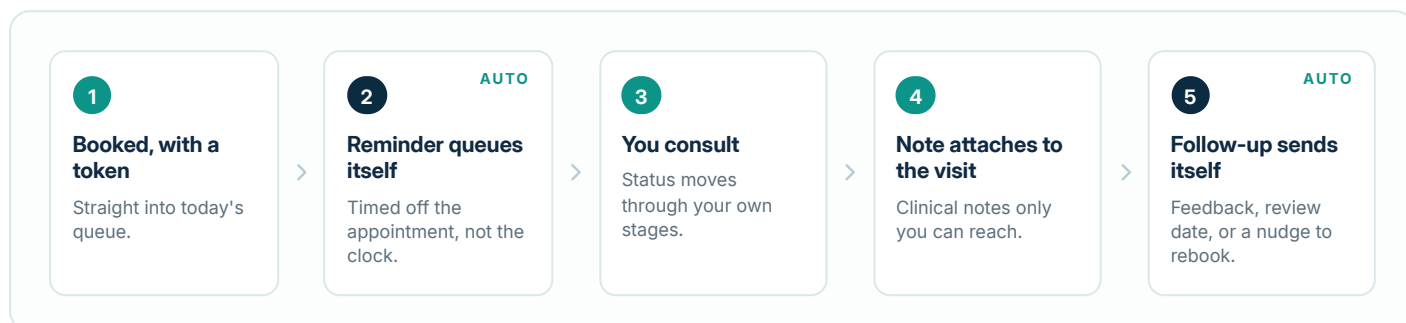

Three doors in. One queue.

FLOW 01

FLOW 02

Live in one sitting

SETUP

What a 40-patient day gets back, every month

Counts desk time and recovered no-shows — nothing else.

42 hrs

Desk time freed, once two-thirds of bookings move to WhatsApp

57

Appointments recovered — reminders cut no-shows by about a third

₹28,500

Value of those recovered visits at a ₹500 fee

240

Bookings taken after hours — the calls that used to ring out

Planning estimates on 40 patients/day, 18% no-shows, 24 working days — for your own judgement, not a promise, and not measured from your clinic.

See it running on your own clinic's numbers.

A 15-minute walkthrough — your venues, your hours, your stages, your WhatsApp.
